3.2.2. Total number of workshops/seminars conducted on Research Methodology, Intellectual Property Rights (IPR) and entrepreneurship for the academic year 2020-2021

S NO	Year	Name of the workshop/ seminar	Number of Participants	Date	Brochure Page No
1	2020-2021	Workshop on Research Methodology	70	27-01-2021 to 01-02-2021	3-4
2	2020-2021	Workshop on Intellectual Property Rights	73	18-02-2021 to 23-02-2021	5-6
3	2020-2021	Workshop on importance of IPR in Modern Global Economic Environment	71	07-01-2021 to 12-01-2021	7-8
4	2020-2021	Workshop on Research Methodology, Writing Practices, Language Soft Skills	86	19-01-2021 to 23-01-2021	9-10
5	2020-2021	Webinar on Entrepreneurship Skills	87	25-03-2021	11-12
6	2020-2021	Seminar on Recent trends in Solar Technology	60	15-10-2020	13-14
7	2020-2021	Webinar on Future Scope of Electric Vehicles	53	24-09-2020	15-16
8	2020-2021	Workshop on Common Personality Traits of a Successful Entrepreneur	65	01-12-2020 to 05-12-2020	17-18
9	2020-2021	Workshop on Major Drives of Entrepreneurial Growth	72	17-11-2020 to 21-11-2020	19-20
10	2020-2021	Workshop on Entrepreneurism & its effects on Economic Growth	82	05-11-2020 to 10-11-2020	21-22
11	2020-2021	Seminar on carrier Opportunities for Engineering Graduates	136	20-08-2020	23-24

ABOUT AVANTHI

Avanthi Institute of Engineering & Technology, Hyderabad is sponsored by Avanthi Educational Society, established in the year 2005, with the able leadership of Sri. M. Srinivasa Rao, came into being with a congregation of dedicated academicians and able administrators in the field of higher education and learning. This Institution has achieved NAAC accreditation for period of 5 years. UG Programs CSE and ECE are accredited by NBA (National Board of Accreditation). The society has grown into a large group of more than 13 educational institutions having student strength more than 25,000 pursuing education in the field of Engineering & Technology, science, commerce, IT & Management under this fold. Career in today's dynamic environment needs, choosing the better location as a bench mark to realize the goals and objectives. A dream of education today, tomorrow and everyone know what was yesterday.

It is a top ranked institution in engineering education in terms of academics & placements. The college offers UG programs in EEE, ECE, CSE & PG programs in, ES, VLSI, CSE. The College has state of the art infrastructure, resource facilities, well-furnished lecture halls

ABOUT DEPARTMENT OF MBA

The department of MBA in Avanthi was started with an intake of 60 students. The department has well established and highly qualified faculty to fulfill the aspirations of student community. The department strives to shape students into critical, and independent thinker

ELIGIBILITY

The course is open to faculty from AICTE approved Engineering colleges / Institutions and working professionals from Industries / R&D organizations & EDC with basic degree in relevant field of Engineering students

PRINCIPAL

Guntur Road (V.O. Abduljalapurmet (Nidi), R.R. Dist

ABOUT WORKSHOP

In a thesis, dissertation, academic journal article or other formal pieces of research, there are often details of how the researcher approached the study and the methods and techniques they used. If you're designing a research study, then it's helpful to understand what research methodology is and the selection of techniques and tools available to you. In this article, we explore what research methodology is, the types of research methodologies and the techniques and tools commonly used to collect and analyze data. Research methodology is a way of explaining how a researcher intends to carry out their research. It's a logical, systematic plan to resolve a research problem.

ABOUT WORKSHOP

Experienced scheme of IPR awareness workshops/seminars helps teach the basics of intellectual property rights to the electronics and IT sectors across India. It is a plan by the Department Of Industrial Policy and Promotion (DIPP) Government of India, Ministry of Commerce and Industry. As part of our ongoing support for Information Technology (IT) and Electronics Industry Promotion (EIPR), the Directorate of Electronics and Information Technology (DEIT) is organising a Scheme to Support IPR Awareness Workshops/seminars. The Scheme will support the activities of the Department of Industrial Policy and Promotion (DIPP) under its "IPR Awareness Campaign".

ABOUT SEMINAR

Someone who creates and runs a business is called an entrepreneur. When an entrepreneur starts a new business, risk is involved. Risk is the chance of losing something. Entrepreneurship is the process of creating something different with value by devoting the necessary time and effort, assuming the accompanying financial, psychic, social risks and receiving the resulting rewards of monetary and personal satisfaction and independence. Because employees work for someone else and entrepreneurs work for themselves, entrepreneurs' risk more than employees. One way you can gain a sense of what business is like is by investigating an internship, or apprenticeship

ABOUT SEMINAR

The solar energy industry are constantly searching for new ways to improve the efficiency of solar panels. Earlier, solar photovoltaics (PV) were considered the future of solar cells. But today, with greater developments made in solar PV technology trend. By the term "solar panels", the first thing that appears to one's mind is the image of rooftop solar cells. And this is for a good reason. Until today, these traditional rooftop solar panels have dominated the solar industry on a large scale. But this year, we have some impressive solar panel technologies that promise a brighter future for any solar PV system.

ABOUT SEMINAR

Electric vehicles have enormous future potential. The charging station is the obvious starting point for these vehicles. However, this is only the first step in a potentially long journey that will include charging banks and other industrial areas, as well as homes and cities. . . Electric vehicle technology has existed in labs such as NASA since the 1970s. In a few years, current technology will undoubtedly be far more advanced. EVs are even expected to power themselves by harvesting energy from their surroundings. Such vehicles will require little maintenance and may even be powered by renewable energy sources such as wind. It will also be interesting to see the impact of EU and US regulations that will go into effect.

ABOUT AVANTHI

Avanthi Institute of Engineering & Technology, Hyderabad is sponsored by Avanthi Educational Society, established in the year 2005, with the able leadership of Sri. M. Srinivasa Rao, came into being with a congregation of dedicated academicians and able administrators in the field of higher education and learning. This Institution has achieved NAAC accreditation for period of 5 years. UG Programs CSE and ECE are accredited by NBA (National Board of Accreditation). The society has grown into a large group of more than 13 educational institutions having student strength more than 25,000 pursuing education in the field of Engineering & Technology, science, commerce, IT & Management under this fold. Career in today's dynamic environment needs, choosing the better location as a benchmark to realize the goals and objectives. A dream of education today, tomorrow and everyone know what was yesterday.

ABOUT WORKSHOP

Someone who creates and runs a business is called an entrepreneur. When an entrepreneur starts a new business, risk is involved. Risk is the chance of losing something. Entrepreneurship is the process of creating something different with value by devoting the necessary time and effort, assuming the accompanying financial, psychic, social risks and receiving the resulting rewards of monetary and personal satisfaction and independence. Because employees work for someone else and entrepreneurs work for themselves, entrepreneurs risk more than employees. One way you can gain a sense of what business is like is by investigating an internship, or apprenticeship

RESOURCE PERSON

K. Rakesh
PKR College

It is a top ranked institution in engineering education in terms of academics & placements. The college offers UG programs in EEE, ECE, CSE & PG programs in, ES, VLSI, CSE. The College has state of the art infrastructure, resource facilities, well-furnished lecture halls

ABOUT DEPARTMENT OF MBA

The department of MBA in Avanthi was started with an intake of 60 students. The department has well established and highly qualified faculty to fulfill the aspirations of student community. The department strives to shape students into critical, and independent thinker

ELIGIBILITY

The course is open to faculty from AICTE approved Engineering colleges / Institutions and working professionals from Industries / R&D organizations & EDC with basic degree in relevant field of Engineering students

The society has grown into a large group of more than 13 educational institutions having student strength more than 25,000 pursuing education in the field of Engineering & Technology, science, commerce, IT & Management under this fold. Career in today's dynamic environment needs, choosing the better location as a benchmark to realize the goals and objectives. A dream of education today, tomorrow and everyone know what was yesterday.

ABOUT WORKSHOP

Entrepreneurial opportunities also depend on the institutional context. For instance, researchers have documented that changes in policy regime and changes in the law can have a dramatic impact on entrepreneurial opportunities. Entrepreneurial education and training is again directly proportional to growth and business creation. Surveys suggest that almost 20% of students, who participate in a mini-company programme in secondary school, later tend to start their own company, a figure that is about three to five times that for the general population. Because employees work for someone else and entrepreneurs work for themselves, entrepreneurs risk more than employees.

ABOUT WORKSHOP

Entrepreneurship, or the activity of starting and running a business, is a vital ingredient of economic growth and development. Entrepreneurs contribute to innovation, and they are central to dynamic Schumpeterian competition and broader economic dynamism. In this paper, we contribute to the entrepreneurship literature by performing cross-section empirical analysis to examine the link between entrepreneurship and economic growth. We divide total early-stage entrepreneurship into opportunity-driven entrepreneurship versus necessity-driven entrepreneurship, and our sample economies into advanced economies versus developing economies.

A dream of education today, tomorrow and everyone know what was yesterday.

ABOUT SEMINAR

Choosing a career path after completing an engineering degree can be daunting. With the rapidly changing working landscape, it is important to carefully understand the various options available and ones best suit your skills and interests. When considering different career paths, it is useful to look at job growth projections in related fields, research employers and companies that are recruiting engineers with similar educational backgrounds, and explore industries where engineering skills are valued highly. Additionally, many universities provide resources such as internships or apprenticeships, allowing students to gain hands-on experience in these areas.

ABOUT SEMINAR

Machine learning is an important component of the growing field of data science. Through the use of statistical methods, algorithms are trained to make classifications or predictions, and to uncover key insights in data mining projects. These insights subsequently drive decision making within applications and businesses, ideally impacting key growth metrics. As big data continues to expand and grow, the market demand for data scientists will increase. They will be required to help identify the most relevant business questions and the data to answer them. Machine learning algorithms are typically created using frameworks that accelerate solution development, such as TensorFlow and PyTorch.

ABOUT SEMINAR

A data warehouse is where data can be collected for mining purposes, usually with large storage capacity. Various organizations' systems are in the data warehouse, where it can be fetched as per usage. Data warehouses collaborate data from several sources and ensure data accuracy, quality, and consistency. System execution is boosted by differentiating the process of analytics from traditional databases. In a data warehouse, data is sorted into a formatted pattern by type and as needed. The data is examined by query tools using several patterns. Data warehouses store historical data and handle requests faster, helping in online analytical processing.

ABOUT WORKSHOP

'E-Learning' is learning that takes place in an electronically stimulated environment. E-learning, web -based training, internet-based training and computer- based training are the next generation instruction method being developed today and the E-learning, users can immerse themselves in a three - dimensional environment to further enhance their learning experiences are moreover, E-learning can be done anywhere and anytime as long as the user has the proper hardware. Today, E-learning is fast becoming a reality through companies like trainer soft and others. E-resources should be readily accessible to all teacher educators and teacher trainees version of resources like books, journals, dictionaries, work books, etc

ABOUT SEMINAR

Digital adoption ensures you get the most out of your technology investments. If customers use only part of your product, they don't see its full value. Similarly, if employees use only bits and pieces of the software you purchase, your company will not see the improvements you intended. Digital adoption drives organizational change by empowering individual end-users – both employees and customers – to become expert technology users and embrace new digital processes and tools with contextual onboarding, training, and performance support. The longer companies remain in business, the more apps they use, resulting in poor software license management – among other IT and technology-related challenges.

Avanthi Institute of Engg. & Tech
Gunthapally (V), Abdullapurmet (Med), R.R. Dist.

ABOUT WORKSHOP

Machine learning is an important component of the growing field of data science. Through the use of statistical methods, algorithms are trained to make classifications or predictions, and to uncover key insights in data mining projects. These insights subsequently drive decision making within applications and businesses, ideally impacting key growth metrics. As big data continues to expand and grow, the market demand for data scientists will increase. They will be required to help identify the most relevant business questions and the data to answer them. Machine learning algorithms are typically created using frameworks that accelerate solution development, such as TensorFlow and PyTorch.

Seminar On
“Security Analysis & Portfolio Management”
 14-12-2020

REGISTRATION FORM

1. Name:
2. Designation:
3. Highest Qualification:
4. Specialization:
5. Department:
6. Institution:
7. Address for communication:
- Pin:
- Mobile:
- E-mail:
8. Experience (Number of years):
- Teaching: Industry:
10. Whether accommodation needed (Yes/No)

Signature
(Participant)

Signature
(Head of the Institution)

Chief Patron

Smt. M. Gnaneswari
 Chairman, AVIH College

Co-Patron

Dr. G. Rama Chandra Reddy
 Principal, AVIH

Patron

Dr. Y. Jaya Pradha
 HR-Director, AVIH College

Advisor

Dr. J S V GOPALA SHARMA,
 HOD, MBA

Co-Ordinator

Dr. RAMANAREDDY NARU
 Professor, MBA

Organizing Committee

Dr. BAJJIS NAYEEMA
 Professor, MBA

R. SIRISHA

Assistant Professor, MBA

ABOUT AVANTHI

Avanthi Institute of Engineering & Technology, Hyderabad is sponsored by Avanthi Educational Society, established in the year 2005, with the able leadership of Sri. M. Srinivasa Rao, came into being with a congregation of dedicated academicians and able administrators in the field of higher education and learning. This Institution has achieved NAAC accreditation for period of 5 years. UG Programs CSE and ECE are accredited by NBA (National Board of Accreditation). The society has grown into a large group of more than 13 educational institutions having student strength more than 25,000 pursuing education in the field of Engineering & Technology, science, commerce, IT & Management under this fold. Career in today's dynamic environment needs, choosing the better location as a bench mark to realize the goals and objectives. A dream of education today, tomorrow and everyone know what was yesterday.

It is a top ranked institution in engineering education in terms of academics & placements. The college offers UG programs in EEE, ECE, CSE & PG programs in, ES, VLSI, CSE. The College has state of the art infrastructure, resource facilities, well-furnished lecture halls

ABOUT DEPARTMENT OF MBA

The department of MBA in Avanthi was started with an intake of 60 students. The department has well established and highly qualified faculty to fulfill the aspirations of student community. The department strives to shape students into critical, and independent thinker

ELIGIBILITY

The course is open to faculty from AICTE approved Engineering colleges / Institutions and working professionals from Industries / R&D organizations & EDC with basic degree in relevant field of Engineering students

Avanthi Institute of Engg. & Tech
R.R. Dist.
Guntur

ABOUT SEMINAR

portfolio managers should carefully select and combine financial products on behalf of their clients for guaranteed maximum returns with minimum risks. Portfolio theory helps portfolio managers to calculate the amount of return as well as risk for any investment portfolio. The process of addition of more assets in an existing portfolio or changing the ratio of funds invested is called as portfolio revision. The sale and purchase of assets in an existing portfolio over a certain period of time to maximize returns and minimize risk is called as Portfolio revision. Portfolio analysis begins where security analysis ends. Portfolio refers to invest in a group of securities rather to invest in a single security.
