## COURSE COMPLETION CERTIFICATE

This is to certify that Mr./Ms. **G.RAHUL** Bearing Reg.No **18Q61A0538** is participated in “**TRENDS OF CYBER SECURITY**” course conducted at the **Avanthi Institute of Engineering & Technology, Gunthapally, Abdullapurmettu, Rangareddy,** in Association with **COIGN** from **14/09/2020** to **19/09/2020**.

COIGN Consultants Pvt.Ltd

A handwritten signature in green ink, likely belonging to the Principal of the institute.

PRINCIPAL  
Avanthi Institute of Engg. & Tech  
Gunthapally (V), Abdullapurmet (Mdl), R.R. Dist.

A handwritten signature in blue ink, likely belonging to the Head of Department (HOD) of Computer Science &amp; Engineering.

HOD CSE  
Computer Science & Engineering  
Avanthi Institute of Engineering & Technology  
Gunthapally (VIII), Abdullapur Met (Mdl),  
Ranga Reddy District.

## COURSE COMPLETION CERTIFICATE

This is to certify that Mr./Ms. **E.SAIKUMAR** Bearing Reg.No **19Q61D5804** is participated in “**TRENDS OF CYBER SECURITY**” course conducted at the **Avanthi Institute of Engineering & Technology**, Gunthapally, Abdullapurmettu, Rangareddy, in Association with **COIGN** from **14/09/2020** to **19/09/2020**.

COIGN Consultants Pvt.Ltd

A handwritten signature in green ink, appearing to be "S.R.L.", written over a rectangular stamp.

PRINCIPAL  
Avanthi Institute of Engg. & Tech  
Gunthapally (V), Abdullapurmet (Mdl), R.R. Dist.

A handwritten signature in blue ink, appearing to be "S.R.L.", written over a rectangular stamp.

Head of the Department  
Computer Science & Engineering  
Avanthi Institute of Engineering & Technology  
Gunthapally (VIII), Abdullapur Met (Mdl),  
Ranga Reddy District.

(57) Abstract :

The exceptional improvements and up-gradation on the Internet along with the underlying technologies, smart sensors, communication technologies, etc. are providing the possibilities for integrating devices, machines, objects, and software for communication purposes without human mediation and involvement. These help in the development of new technology namely the Internet of Things (IoT). There are different kinds of wastes produced across different platforms among them bio-medical waste (BMW) plays a vital role in terms of both detection and classification. The waste is produced as the result of treatment, diagnosis, and immunization of human beings and animals is the bio-medical waste. The pharmaceutical manufacturing companies, medical clinics, and hospitals produce around 3.2 million tons of bio-medical waste annually amongst that half are considered infectious. Improper disposal of the waste leads to chronic diseases like tuberculosis, diabetes, and cancer. This has led to the need for a comprehensively complete approach that includes the process of 1. characterization, 2. quantification, 3. segregation 4. detection, 5. classification, and 6. treatment of the bio-medical waste. This invention is involved in the development of the smart medical waste management system. This system uses the deep learning algorithm in machine learning techniques for the classification of waste.

(57) Abstract :

The exceptional improvements and up-gradation on the Internet along with the underlying technologies, smart sensors, communication technologies, etc. are providing the possibilities for integrating devices, machines, objects, and software for communication purposes without human mediation and involvement. These help in the development of new technology namely the Internet of Things (IoT). There are different kinds of wastes produced across different platforms among them bio-medical waste (BMW) plays a vital role in terms of both detection and classification. The waste is produced as the result of treatment, diagnosis, and immunization of human beings and animals is the bio-medical waste. The pharmaceutical manufacturing companies, medical clinics, and hospitals produce around 3.2 million tons of bio-medical waste annually amongst that half are considered infectious. Improper disposal of the waste leads to chronic diseases like tuberculosis, diabetes, and cancer. This has led to the need for a comprehensively complete approach that includes the process of 1. characterization, 2. quantification, 3. segregation 4. detection, 5. classification, and 6. treatment of the bio-medical waste. This invention is involved in the development of the smart medical waste management system. This system uses the deep learning algorithm in machine learning techniques for the classification of waste.

## COMPANY PROFILE OF REGIONAL TELECOM TRAINING CENTER

RTTC, Hyderabad is a fully standards-compliant Training Center, established by BSNL to impart training in Latest Telecom Technologies and Information Technology to its employees all over India. It is also providing value-added Certification Courses and Major/Mini projects to B.Tech/B.E/MCA students in ECE and CSE/IT, coming from various Engineering Colleges within and outside Telangana/Andhra Pradesh.

Regional Telecom Training Centre has been established in 1973 at Hyderabad by Department of Telecommunications to impart training to their staff. This training center is situated in 42 acres land at Gachibowli, I.T hub of Hyderabad City. This comprises of Administrative cum academic block, Hostel Block etc. With the burgeoning growth that is being experienced in the Telecom sector there is requirement of manpower to plan, install, operate and maintain the Telecom networks. The Telecom networks could be fixed access landline voice and broadband, GSM and CDMA wireless, 3G, data networks and optical fibre networks. Specific skills are required for each of these areas and activities.

## COMPANY PROFILE OF T-HUB

In 2022, T-Hub completed seven successful years of empowering India's innovation ecosystem. In these years, T-Hub has worked towards building one ecosystem that nurtures entrepreneurship and innovation. T-Hub has designed and delivered more than 100 innovation programs in the last seven years, enabling 2000 startups to scale nationally and globally and connecting them with various influential ecosystem stakeholders.

T-Hub's corporate innovation programs have successfully achieved more than 50 scaling interventions, about 150 corporate interactions with startups, 60 corporate innovation programs and curated innovative startups in 50 countries. It has over 600 international and national corporate and 2000 mentor connections.

T-Hub has also enabled academia to introduce innovation and an entrepreneurial approach in curriculum and empower corporations to build a culture of innovation. Under its new leadership, T-Hub will continue to develop strategic programs to elevate innovation for outcome-driven results and support other ecosystem enablers — TSIC, T-Works, WE Hub, RICH, TASK — by sharing its knowledge and resources

## COMPANY PROFILE OF NATIONAL REMOTE SENSING CENTER

National Remote Sensing Centre (NRSC) at Hyderabad is responsible for remote sensing satellite data acquisition and processing, data dissemination, aerial remote sensing and decision support for disaster management. NRSC has a data reception station at Shadnagar near Hyderabad for acquiring data from Indian remote sensing satellites as well as others.

NRSC Ground station at Shadnagar acquires Earth Observation data from Indian remote-sensing satellites as well as from different foreign satellites. NRSC is also engaged in executing remote sensing application projects in collaboration with the users. The Aerial Services and Digital Mapping (ASDM) Area provides end-to-end Aerial Remote Sensing services and value-added solutions for various large scale applications like aerial photography and digital mapping, infrastructure planning, scanner surveys, aeromagnetic surveys, large scale base map, topographic and cadastral level mapping, etc.

Regional Remote Sensing Centres (RRSCs) support various remote sensing tasks specific to their regions as well as at the national level. RRSCs are carrying out application projects encompassing all the fields of natural resources. RRSCs are also, involved in software development, customization and packaging specific to user requirements and conducting regular training programmes for users in geo-spatial technology, particularly digital image processing and Geographical Information System (GIS) applications

To  
The Manager,  
(HR Dept)  
Balnagar  
Hyderabad.

Dear Sir,

Sub: Industrial visit of B.TECH students to NRSC Request-reg.

Avanthi Institute of Engineering and Technology, is one of the premier Institutions offering varied courses in the domains of Engineering, Technology i.e. B.Tech and M.Tech at Graduation and post Graduation levels respectively and at the post Graduate level.

Engineering students need to be aided with more practical exposure to the business world and a wide scope of acquiring advanced knowledge and application possibilities beyond the prescribed syllabus. With this endeavor to provide a learning opportunity for our students, we would like to seek your kind support by permitting our ECE III& IVTH year students numbering up to 121 and 3 senior faculty members accompanying them, to visit your organization for obtaining useful inputs and guidance from the knowledgeable and experienced industrial personnel.

We will be grateful for your kind acceptance of this humble request and will be looking forward to your favorable response.

Thanking your in anticipation of an early and favorable response.

DR.S.KISHORE REDDY

Head of the Department,

  
Principal
