Sai Aditya is interacting with Students on Alumni 2022

"Hey everyone,

I wanted to chat with you about starting your own business, something many of you might be thinking about. Entrepreneurship is basically about starting and running your own company or business. It's like being your own boss and making your ideas come to life!

First things first, think about what you love doing. What are you really passionate about? It could be anything—making cool gadgets, creating apps, baking cakes, or even teaching. Your business idea should match what you're passionate about.

Once you have an idea, it's time to do some homework. You've got to learn about the people who might want to buy your product or service. That's called market research. Find out what they need and how your idea can solve their problems or make their lives better.

www.aietg.ac.in email: principal.avanathi@gmail.com

Planning is super important. You'll need to sketch out a plan—what your business will do, how you'll do it, and how much money you might make. It's like having a roadmap for your business journey.

Remember, you don't need to start big. Start small and test your idea. Maybe make a prototype or offer your service to a few people. Get their feedback, learn from it, and improve.

Being an entrepreneur means you've got to be good at lots of things. It's not just about having a great idea; it's also about being good with people, solving problems, and handling money smartly. You'll need to keep learning new things as you go along.

Don't be afraid to ask for help. Connect with people who've done this before—they're called mentors. They can guide you and share their experiences.

There will be tough times, things might not work as planned, and that's okay. Being resilient, staying positive, and learning from failures are all part of the journey.

And finally, take care of yourself. Building a business can be stressful, so make sure to find balance between work and personal life.

Starting your own business is an exciting adventure, full of learning and surprises. Stay curious, keep learning, and believe in yourself and your ideas. You've got this!

My advice to My lovely Juniors---

To all the juniors here, I encourage you to utilize your college days. They play a significant role in shaping your future. Take advantage of the resources available, seek guidance, and most importantly, follow your passions and work hard to achieve your goals. Remember, every experience, whether success or failure, is a stepping stone towards your growth.

If anyone has any questions or needs advice about careers, I'm more than happy to share whatever insights I can offer.

CHELLA GOPINATH secured a job at Saras Analytics, Madhapur, and Hyderabad share about his experience at alumni of AVANTHI college of Engineering about "Rewarding Career in Data Science"

CHELLA GOPINATH is interacting with Students on Alumni 2022

Data science is an interdisciplinary field that employs mathematics, statistics, computing algorithms, advanced analytics, artificial intelligence (AI), and machine learning to extract useful information and insights (such as larger patterns and trends) from a large body of data or datasets.

A data scientist is a computer professional possessing skills for collecting, analyzing, processing a large set of structured and unstructured data. In this time of computers, most organizations are collecting a huge amount of data in their daily operations.

Gunthapally (V), Abdullapurmet(M), RR Dist, Near Ramoji Film City, Hyderabad -501512.

www.aietg.ac.in email: principal.avanthi@gmail.com

A data scientist can organize and analyze this huge amount of data to make it accessible to lead a profitable business. For example, an organization can use data science to remind its customer of habitual purchases. Suppose you order a shampoo every month, you may find a strategically placed deal around the same time of every month, prompting you to buy more.

Data Scientists not only play a key role in business analysis, but they are also responsible for building data products and software platforms. Truly speaking, data science is a combination of computer science, statistics, and mathematics.

Considering all this, it is a good idea to think of a career in this dynamically expanding industry. Let's begin by looking at some of the most popular data science career opportunities.

Different Job Roles for Data Science Experts

Most companies are adopting data analysis for their growth. Data Scientists are in a growing demand not just in technology, but also in all other major sectors, including FMCG, logistics, and more. It is commendable to inscribe here that the five biggest companies viz. Google, Amazon, Apple, Microsoft, and Facebook have employed one-half of the total data scientists the world has.

Data science career opportunities are nonetheless, incredibly diverse. Opting to undertake a data science career will open up several career opportunities and job titles for you.

Data Scientists

A Data Scientist explores various data patterns to measure the impact on an organization. A key role of a [Data Scientist](#) is the ability to explain the importance of data in a simpler method to be understood by others. They are supposed to have a statistical knowledge of different programming languages required for solving complex problems.

Data Analyst

Analyzing data to figure out a market trend is the [role of a Data Analyst](#). He helps in providing a clear picture of the company's standing in the market. Once the desired goal is set by a company, a Data Analyst provides datasets to achieve the required goal.

The role of a Data Analyst may change as per the requirement of a company. For instance, the marketing department may require their services for some time to understand consumer behavior and reactions to different marketing strategies.

Data Engineer

Data Engineer works with the core of the organization and can be considered as the backbone of a company. They are the builder, designer, and manager of a large database. They are in charge of building data pipelines, enabling correct data flow, ensuring the data to reach the relevant departments.

A Data Engineer has to work in collaboration with other data experts to communicate results with his colleagues. In a nutshell, a data engineer has to share his insights with the company through data visualization, helping the organization grow.

www.aietg.ac.in email: principal.avanthi@gmail.com

Business Intelligence Analyst

A business intelligence analyst helps in analyzing the collected data to maximize the company's efficiency, hence generating more profits. Their role is more technical in nature then analytical, requiring more knowledge of popular machines. They have to serve as a bridge between business and IT, helping them improve.

A Business Intelligence Analyst is required to possess the knowledge of a specific industry and industry trends.

Marketing Analyst

The role of a [marketing analyst](#) is to assist companies in their marketing division. They analyze and suggest which product to produce in large quantities and which product to discontinue. Monitoring customer satisfaction reports help in improving existing products and services. They decide which products to sell with the targeted customers and at which price.

Data Architect

One of the most essential careers in data science is to become a data architect. A data architect designs, develops, and maintains a business' data management systems. They are responsible for meeting the company's database requirements and building them in keeping with internal and external regulations.

Machine Learning Engineer

One popular role or career in data science, machine learning engineer, is primarily responsible for automating data analysis processes. They design and implement machine learning systems, research and optimize machine learning algorithms, and perform machine learning tests to monitor system performance and functioning. It has emerged as one of the most essential data science careers in recent times.

www.aietg.ac.in email: principal.avanthi@gmail.com

Database Administrator

A database administrator is involved in maintaining and functioning of the organisation's database system. They are responsible for the safe and secure management and storage of data and develop backups and recoveries solutions. To put it simply, they are responsible for the day-to-day functioning and management of a company's database system.

Technical Skills

You must be excellent in Mathematics, Computer Programming, and Statistics to be a successful data scientist.

Other technical skills needed are:

- **Programming** – Proficiency in computer programming and coding languages
- **Analytical tools knowledge** – SAS, HADOOP, Spark, and R, are the popular analytical tools, used by the data scientists
- **Unstructured Data Workability** – Ability to manage unstructured data received from different channels

Non-Technical Skills

Most of the personal skills possessed by an individual are categorized under the non-technical section. They are:

- Strong business sense
- Communication skills
- Data intuition

How do I become a Data Scientist?

You should have a bachelor's degree in data science or a related field to start your career as a Data Scientist. A certified course in data science is preferable to enter the market as a data scientist. A background in Mathematics and Statistics also increases the chances of being

ALUMNI's FEEDBACK

Vinay

As I have studied in this college, the college infrastructure and the faculty were fabulous. The placements in this college were abundant so the placements were pretty enough as I am being a ECE student I am glad to choose this department

Sanjana

I am immature student and never use to get good CGPA but faculty never discouraged me, they always encouraged and motivated me to get a good score. With the faculty encouragement I have got the best placement is this college with highest package

Preethi

As I am being an introvert student, I used to never mingled with anyone but when I entered to this college the faculty were very friendly and motivated me to mingle with everyone. This is the college where I lost stage fear and now because of that I can be bold in every aspect

Sarika

As college days are very memorable for everyone, this college encourages everyone to achieve their goals and here students can participate in many sports competitions. They also conduct some technical fests which are helpful to the students who are interested in technical.

Ramesh

I have seen many colleges but this college have motivational classes, seminars, interactions with many top companies CEO's and well maintained labs, lab equipment's were more which is very much helpful for students

YEARLY REPORT ON AVANTHI ALUMNI ASSOCIATION DURING THE ACADEMIC YEAR 2021-22.

Avanathi Hyderabad Alumni Association Sincerely working on the following parameters:

1. Working towards the society:

- a) Conducting surveys in nearby villages about their educational needs.
- b) Arranging food for orphanage.
- c) Arranging blood donation camps in co-ordination with NSS organization.

2. Contribution towards organization:

- a) Conducting talk series by best Alumni to motivate present student to settle well
- b) Issuing Recommendation letters for higher studies to Alumni
- e) Helping Alumni to get high package through informing them to participate in Placements even after their completion of B.Tech.
- d) Providing Alumni with respectable opportunities like faculty in Avanathi Institute of engineering college

3. Provision of necessary equipment/physical things to organization:

- a) Speaker & Audio system in CSE Seminar Hall.
- b) Refrigerator in Mechanical dept.

Summary of Alumni 2021 - 2022

The Institute has a registered Alumni Society for building strong bond between alumni and present students. The alumni give support to the students through interaction, financial funding, guidance and placement. The Alumni Society of the Institute is called as AAS i.e. Avanathi Institute of Engineering Alumni Society. The mission of the Alumni Society is to foster a mutually beneficial relationship between the Institute and its alumni.

Objectives of the Alumni association:

- To encourage and promote close relations between the Institution and its alumni and among the alumni themselves.
- To promote and encourage friendly relations between all members of the alumni body, an interest in the affairs and well-being of the Institution.
- To provide and disseminate information regarding their Alma Matter, its graduates, Faculties and students, to the alumni.
- To initiate and develop programs for the benefit of the alumni.
- To assist and supporting the efforts of the Institution in obtaining funds for development.
- To serve as a forum through which alumni may support and advance the pursuit of academic excellence at the Institution.
- To guide and assist alumni who have recently completed their courses to obtain employment and engage in productive pursuits useful to society.
- To organize and co-ordinate reunion activities of the Alumni and let the Alumni acknowledge their gratitude to their Alma Matter.
- To collect, publish and distribute such information as may be useful to the alumni and their Alma Mater.

Activities and Contributions:

- Alumni have donated funds to assist the Poor & Merit students of the Institution.
- Alumni are included as members in the all departments. They are invited for meetings at the college and they interact with their teachers and express their suggestions on curriculum revision.
- Few Alumni gave Guest lecturers to the existing students on some contemporary technological developments and career guiding focuses.
- Alumni talk on entrepreneurship in simpler terms By Sai Aditya
- Alumni talk on "Rewarding Career in Data Science" By Gopinath
